

SOLDIERS MAY BE FEATURE OF GREAT HOLIDAY OBSERVANCE

Army Likely to Co-operate in Spectacular War Maneuvers; Finance Committee Approves Fireworks Outlay.

Not only has interest in the big July 4th celebration reached a high pitch of enthusiasm but it has already assumed a very tangible aspect, judging from the manner in which donations are pouring in to the financial committee. Chairman White of the executive committee is more than delighted at this evidence of true interest and desire to stand by the project. He feels, and with the best of cause, that his efforts for holding the celebration have met the fullest approval and co-operation, not only of the other committees, but of the citizens in general.

One of the most enthusiastic of all those connected with, or in any way interested in the matter, is General Manager Greenway of the C. & A. That prominent and public-spirited mining official is donating not a little of his valuable time in the effort to assist in carrying the celebration plans to a climax of triumph.

Captain Greenway is anxious that the celebration be marked by the presence of a delegation of soldiers from Douglas. He feels that Uncle Sam's regulars, being so near at hand, should be present to join in the general activities of the holiday. Captain Greenway makes the suggestion that the three divisions, infantry, cavalry and artillery, each be represented by a company. In order that the people may have the opportunity to see something of the activities of real war, Captain Greenway further suggests that a temporary structure might be erected, to be torn down by the soldiers, as if in actual combat.

The sports committee has gone on record as being in favor of baseball and races. It is already settled that the local rivals, the Boosters and Grays, will clash at Warren Park. This game should prove a great attraction, as there has been rivalry between these clubs.

As has been stated previously in commenting on the celebration plans, the children are to receive special attention. One of the features for their edification will be a children's parade in Warren. This event should be extremely attractive from the spectacular standpoint, as well as interesting and unusual.

The proposed expenditure of the fireworks committee, as announced in yesterday's Review, were approved by the finance committee. This assures a pyrotechnical display which will be a splendid close of a wonderful holiday for all the district and adjacent territory.

Enthusiasm is a predominant characteristic of the Southwest. Never, however, has it been demonstrated in a more striking manner than it is in the great outburst of effective optimism shown by committees and citizens generally since the celebration plans were formally launched. This is growing every day and spells triumph for the Fourth observance in capital letters.

NOTICE
Inasmuch as there has been a rush of workmen to Cananea, seeking employment, the demand is over supplied and the Cananea Consolidated Copper Co., S. A., takes this means to advise those seeking employment, urging them not to make the trip to Cananea, as there is no chance for employment. The American workmen of the Cananea Consolidated Copper Co., S. A., are proportionately few, and those now at work are former employees who were sent for by the management. Adv.

Don't Worry about a smash up like this—take your car to the Cochise Motor Company, they will fix it, and fix it right too.

When in need of tires, don't forget to get our prices.

Don't forget our full line of Congress Tires at the right price.

All tire adjustments made right at our Garage.

The best vulcanizing in the district.

Among the full equipment of our shop we have an Oxygen-Carbon removing machine Removes carbons without taking the engine down.

Try our quick service when you are broke down on the road. We leave the Garage immediately upon receiving call.

Our specialty is to repair all makes of machines.

WILLIAM FARNUM IN 'SAMSON' TODAY AT ORPHEUM THEATRE

It is a scoop for the Orpheum in being able to present tonight the hero of "The Spoilers", William Farnum, in his recent masterpiece "Samson". This production extraordinary by Henri Bernstein is not a biblical play but a play of today with sustained dramatic action. With climax following climax in startling succession, William Farnum plays the principal part, that of Maurice Brachard, the dock laborer, who rose to be Samson of America, roused to Atlantic wrath by the insolence of his friends and by the fact that the wife he worships spurns his devotion. This modern Samson pulls down the structure of wealth that he himself had erected, ruins the rake who is pursuing his wife and crushes the crowd of snobs, and hangers-on that his benevolence has enriched. "Samson" rises triumphant over the wreck of his fortune and secure in the love of his wife and with full faith in her sets his face towards a fresh beginning.

On Monday Bonworth will present Maxlyn Arbuckle in the Paramount masterpiece "It's No Laughing Matter".

SAYS MINERS WORK MORE EFFECTIVELY UNDER DRY REGIME

Captain J. P. Hodgson, Copper Queen Mine Superintendent, Compares Wet and Dry Conditions; Prefers Prohibition.

Captain J. P. Hodgson, mine superintendent of the Copper Queen, is among the industrial leaders who feels that the incorporation of prohibition regulations in the State of Arizona has proven a decided boom from all view points. Having made some interesting deductions relative to practical results of dry times in the Warren District, Captain Hodgson expressed his views to a Review reporter in an extremely interesting and comprehensive manner. Naturally his deductions were confined to the effects of the prohibition regime on the mining industry.

Captain Hodgson arrives at the conclusion that far more satisfactory results are now obtainable from the men than under the wet system. His detailed analysis shows that there has been 14 times less loss of time per 1,000 shifts in 1915 than in 1914. From the standpoint of accidents the results also preponderantly favors 1915. While the accident ratio of 1914 was 2.6 per 1,000 shifts, for 1915 it is 45 one-hundredths, or less than half of one per cent. These figures seem to bear out the contentions of various writers on the effects of use of or abstinence from alcoholic liquors.

EL PASOANS BOAST EASY TRIUMPH OVER MINING CAMP TEAM

Pass City Club Players Have Slight Respect for Buck's Pets—Cassidy May Prove Rude Surprise.

For the first time this season a team from outside the boundary of the Valentine State will oppose the Boosters. The fast City Club team from the Pass City will cross bats with the C. & A. combine at 2:30 this afternoon, at Warren Park. It is said in baseball circles that the visitors have made their boast that they will make the home club look like a bunch of untutored school-boys. A local fan and one of the most consistent supporters of the game in the district, when told of the visitors' reported boasts, expressed himself in this way:

"Maybe they will and maybe they won't. But from the outside it looks like a mighty even betting proposition. If the visitors have any of the long green which they care to risk at even money, why, yours truly will be right there waiting to accommodate them."

So there is the whole matter in a nutshell, both sides confident of taking the big end of the score. The Pass City players are reported to have passed the remark that they did not intend to be trimmed by a bunch of mining camp bushers. At any rate, it is a certainty that they are coming here in an extremely confident frame of mind. This is just what is wanted, however, and the fans from the western outposts of the Lone Star State will receive a warm reception.

In speaking of the departure of infielder McNeil, yesterday, Manager Buchanan, of the Boosters, declared that, while he regretted the loss of the aggressive third sacker, he was not in the least complused and fans could rest easy that the gap would be filled.

be properly filled. Banks, the Douglas soldier, has been secured to hold down either the hot corner or short-stop position and this player and Kemp, also of Douglas, will be with the Boosters the rest of the season. Manager Buchanan gives out the following lineup: O'Brien c. Kemp 1b. Kraft ss. Earhman 2b. Hodges 3b. Wilwhite cf. Jeuck rf. Banks 3b. Cassidy p. The batting order is subject to change. Game starts at 2:30 sharp. Admission fee will be 25 and 50 cents. Play Ball.

BUSINESS DEAL MADE IN LOWELL; MIKE THE TAILOR SELLS STORE

D. P. Hickey Purchases Good Will and Excellent Stock of Merchandise From M. Rosenthal, Otherwise Interested.

In the changing hands of the Mike the Tailor business, in Lowell, one of the best known of the district merchants goes out of the particular line of work and D. P. Hickey enters. Hickey and M. Rosenthal, who has been known as Mike the Tailor, took stock yesterday and tomorrow the store will be under the management of the former.

Hickey is well known locally where several years ago, he was in the employ of the Phelps Dodge Mercantile Company. Later he was on the coast and there acted as an expert for the board of trade of Los Angeles, a concern which takes insolvent stocks of merchandise and brings them out of arrears.

M. Rosenthal leaves the business well established, due to his policy of carrying an excellent line of goods (furnishings and square dealing. He has property in Texas and in Arizona and will look after other interests for some time.

It is understood that Rosenthal will interest himself, almost exclusively, for some time, in the promotion of the interests of the Wilson-McLeod Drill Extractor Company, of which he is the heaviest stockholder. It is rumored that the company at an early date, will move its headquarters to Kansas City and there manufacture the drill.

Building Future Men and Women

It's the right of every boy and girl to become a healthy, successful man or woman—

And they should start now to build for the future. Indulgence in heavy, rich foods when young leads to indigestion and other troubles when grown.

Grape-Nuts

is a healthful whole wheat and barley food—scientifically prepared for easy digestion by mashing of the barley and the long twenty-hour baking.

Grape-Nuts has a delicious, nutlike flavor, and supplies those rich food elements that build sturdy bodies and active brains.

'There's a Reason' for Grape-Nuts
—sold by Grocers everywhere.

\$30,000 BOND ISSUE CARRIES DISTRICT BY 98 TO 2 VOTES

Opposition to Movement for General Educational Improvement Proves Negligible; Public Is Pleased.

By a vote of 98 to 2 citizens of the Warren District expressed themselves yesterday in favor of the \$30,000 bond issue for purposes of needed improvements and extensions in the school system. More important of the improvements to be made are the venerable with brick of the Lowell and Lincoln schools, construction of additional schools to serve the requirements of the population of Warren, Bakesville, Cochise and Mason's Addition; also, as the law requires, to provide a proper school building for the colored children of the district. Numerous repairs are also intended at the Central school, Don Luis and South Bisbee.

The result of yesterday's election is hailed as a splendid triumph for the promotion of the educational welfare of the children in many different parts of the Warren District. By public opinion's overwhelming assertion in favor of the bond issue, the overcrowded conditions of the Warren school will be remedied, children of Bakesville, Cochise and Mason Addition supplied with suitable school facilities and important general improvements made.

Prominent educational promoters expressed themselves, last evening, as delighted at the preponderant expression in favor of expending the district funds for the advancement of the educational interests of the children. It seemed to be a general opinion that the vote was a splendid vindication of the unselfish public-spiritedness of the community.

FEDERAL TAXES DUE

PHOENIX, June 15.—Attention is called to the fact that all Federal taxes, including income tax on corporations and individuals, as well as all special taxes, must be paid to the Collector of Internal Revenue, at Phoenix, Arizona, on or before June 20, in order to avoid the penalty for failure to do so.

ROAD BOOSTERS' MEETING HERE TOMORROW

(Continued from Page 1)

hand for the committee to set on tomorrow afternoon.

Conservatism in demands has already been urged and the enforcement of this policy will be one of the important and difficult problems for the association to handle. Ways and means to digest the proposed systems into one system of trunk roads, leading from definite points to other equally definite points will have to be found. This makes the Bisbee meeting of more than ordinary importance, its results will put the bond issue proposition into concrete form.

In the way of entertainment, the reception committee of ten will see that those who have not been over the paved county road and the nearby state highway can make the trip if they desire. Nearly all of the delegates have friends here whom they will want to call upon and outside of the meeting of the association it will be a day of handshaking and greeting.

A cordial invitation is issued by the committee to all interested in county roads to attend the meeting but such visitors naturally cannot participate in the conduct of the business or in the debate or no progress could be made by the delegates. Adjacent districts will be asked to get together and see that their road plans connect up in advantage of the session and all possible steps taken to simplify procedure.

The committeemen from the Bisbee district are J. J. Bowen, J. C. Ryan, Harry Jennings, L. A. Brown and J. H. Gray; from Douglas district G. H. Dowell, Harvey Johnson and representative from Apache and Paradise: Double Adobe, Lee Jovanovich; McNeal, E. P. Grindell; Palomina, H. E. Cooper; Garces, Joe McCabe; Hereford, H. E. Fletcher; Fairbank, Arthur Henry; Lewis Springs, Frank Mosien; Buena, M. Bryan; Tombstone, A. H. Gradner and C. B. Tarbell; Benson, Charles Moss; Courtland, C. H. Renaud, Nate Brown, L. H. Brown; St. David, William Goodrich; Wilcox, J. W. Angle; Cochise, George Henshaw; Dragon, Dave Adams and A. Wren; Bowie, J. J. Thompson; San Simon, Dr. Copp. As advisors from several of the precincts are that more citizens than delegates will be at the meeting it is expected that the capacity of the city council chamber will be taxed as never before even if it be not found necessary to secure a more commodious meeting place.
